# Who we are

## About us

We are an e-marketing company with designing websites and designing internet stores in addition to e-marketing on all communication platforms and video shooting for all types of companies.

[www.websolla.com](http://www.websolla.com)

## What is our policy in dealing

We deal directly with the client, understand his needs and implement them creatively

Follow up with the client on an ongoing basis.

Ensuring the achievement of safety , creativity and quality for the client.

Ensuring our overall responsibility for quality and efficiency of all works that we implement from the beginning through all stages and even the final delivery stage.

## Our mission

Web Sola strives to provide the best quality and develop it continuously so that we can integrate development and quality in a safe and strong way

We also strive greatly for customer satisfaction, and that he is satisfied with all the services provided by Web Sola, to the last of which is technical support, which is considered one of the most important departments we have because it follows up on technical and technical problems, and this is considered a kind of customer comfort.

We work hard so that we can reach the goal of our company, which is to increase the services provided and serve customers outside the Arab Republic of Egypt and expand the provision of services

## Our Vision ”

Changing the idea of Digital Marketing for company owners by facilitating the idea of creating websites and marketing through social media platforms, and highlighting the expected results for them when changing the course of their business to digital

# OUR SERVICES

## Web Design & Development

Your Website is an Area of Multiple and Interconnected Pages that are United in One Design .. These pages gather on a server that contains all the information and data that make up these pages and be in a safe place called Hosting

## Web Hosting & Domain Name

While You Create Your Website, You think about The Domain Name ( www ) or Design, but the anonymous soldier in your Website is the Hosting That makes your website Available on the Internet and allows the content of your site to be Displayed and Published on the Web.

## Digital Marketing

The emergence of a new generation of technology of all kinds, and social media has emerged to be the most important social and practical means of communication, as it relies on collecting the largest amount of information and data daily to record it to be the largest library of daily life at various ages and is to share all content, texts, videos and images to allow interaction with others For people who belong to the same country only, but social media is characterized by global communication with people from different countries around the world.

## Photo Session

A picture is worth a thousand words. This quote expresses the impact of pictures and what can be expressed in one image. The images on your site reflect your identity and the feeling of confidence in your customers. If you are a business owner, having great pictures of your products will keep visitors moving for a longer period on your pages.

## Branding

Your brand is not just a sign. Like every person has a fingerprint that indicates his identity . Your project also has its own fingerprint that will help you introduce yourself to others, and people call them your identity and your personality, which distinguishes you from your competitors, and which draws the customer's attention to you and who will let him choose you in the end.

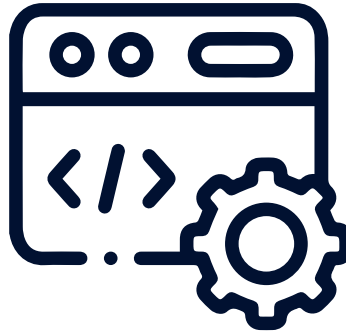

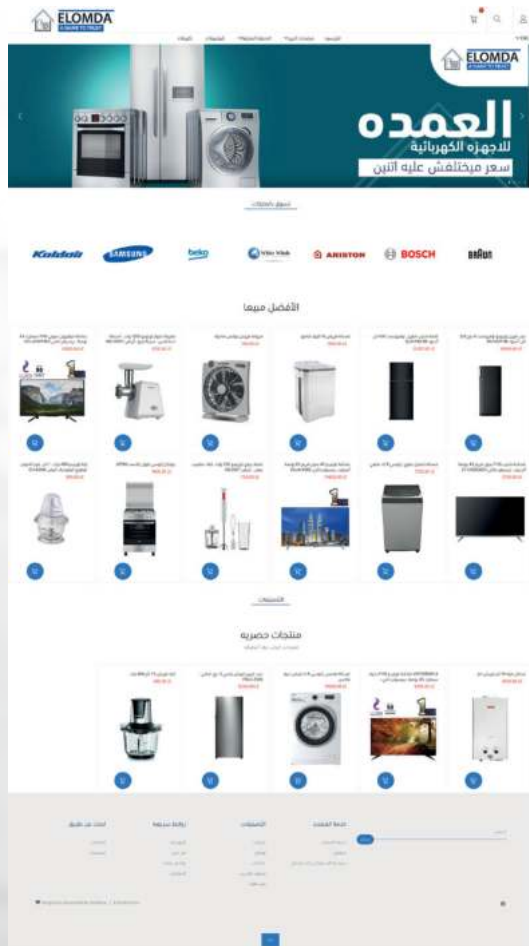

## Mobile Application

Technology has affected the ease of communication between people and their proximity to some more .
